

Columbia Soil and Water Conservation District Fox Creek Sinkhole (Rainier) – EWP 2016

The Columbia Soil and Water Conservation District (CSWCD) is requesting proposals from contractors to work on a damaged culvert and sinkhole repair in the city of Rainier. The project site is located at the intersection C Street and 3rd Street in the parking lot behind Don Pedro’s restaurant. The project involves the removal of a severely damaged and nonfunctioning culvert starting at the sidewalk of C Street behind the RV parking lot through to the NW corner of the Don Pedro parking lot. As determined by the project engineer, some work in this project will inevitably take place below the Ordinary High Water Mark (OHWM) due to the creek being underground. Most work will occur outside of waters, including project access and staging, excavation and fill. Implementation of Best Management Practices (BMPs) to prevent and avoid impacts to the creek and other resources associated with the stream will likely include, but are not limited, to the following:

- Work will be timed in accordance with low summer flows and the In-water Work Period. Due to emergency nature of project in-water work extension may be attained.
- Installation of Geo-textile fabric and/or weed free straw or mulch over bare earth for short term erosion prevention
- Equipment working primarily from the top of bank and out of the water to the extent practicable
- Partial/Full Dewatering and Fish Salvage
- Aqua-Dam and/or Silt Barriers and Curtains to prevent turbidity impacts during construction
- Grass seeding for long term erosion protection

*** The estimated cost range for this project is between \$400,000 and \$500,000 ***

Project Documents:

The following documents provide complete details for Contractors on the Fox Creek Sinkhole Project. They are accessible for download at www.columbiaswcd.com

Request for Proposal
Engineering Plan Set: Drawings and Specifications

Contractor’s Bid Sheet and Documents, Up-to-date Engineering Plan Sets, and additional project specifications will be available the day of the Mandatory On-Site Pre-Proposal Conference. See below for time and date.

If necessary, the Columbia SWCD will provide a complete set of these documents in hard copy format to prospective Contractors. To obtain a set, contact:
